

Do You Need Real World Experience?

Co-Op Opportunities Now Available working for a company that

manufactures products that are
"Powering *Life for Modern Humanity*"

**IMMEDIATE
AVAILABILITY!**

**APPLY
TODAY!**

It's Time to Start Your Career!

Advanced Power Technologies (APT) manufactures cutting edge engineered power systems products, including low and medium voltage switchgear and control panels for power distribution and for renewable & conventional energy source deployments.

Don't Move! 2, 3, 5 Session Lafayette Local Co-Op

- We are looking to find and develop the next generation of talented electrical engineers, technologists, and technicians
- No experience needed... we will teach
- Ideal candidates should have a mechanical and/or electrical aptitude and desire to stay in the Lafayette/Central Indiana area post-graduation
- Start hands on, show that you have the desire, skills & work ethic, and we'll show you future growth opportunities as an engineer

WHY APT???

- Well established company with steady workflow & job security
- Make money, gain experience, no need to relocate, and be prepared for "the real world" after graduation
- Help wire & build real electrical power distribution panels, switchboards, & switchgear with components such as:
 - Circuit Breakers (120V-15kV+)
 - Bus Bar (Up to 4000A)
 - Surge Arresters
 - Protective Relays & More!

**Send resume/inquiries to employ@aptinc.net
Mention 'Purdue Co-Op Program' in the Subject**
