

SUMMER 2023 SAFETY INTERNSHIP

We are seeking an organized, self-motivated safety intern to work at the Merom Generating Station near Merom, Indiana. The candidate will work with the safety and training department to perform contractor and new hire orientations. In this position, the candidate will become familiar with working on a team in the power plant industry and gain practical skills and knowledge to supplement the classroom experience while being introduced to outage work environments and everyday emergent work. Other interim-level specialist duties include human performance audits, clearance permit auditing, hot work, and confined space. The position will involve power plant field and office work at Merom. Learn more or apply to our safety internship by scanning the QR code.

Qualifications:

- Must be enrolled in a curriculum leading to a degree in Occupational Safety, Construction Management, or similar degrees
- Must be enrolled as a full-time student at current institution
- Must be able to complete required background check and drug screening
- Must be in good physical condition
- Must be able to climb steps/ladders and carry tools and equipment as needed in a loud, hot, or cold atmosphere.
